

### **SMRT Corporation Ltd – IT Security Specialist (Bishan)**

You will be required to enforce the IT Security policies and standards, perform security audit, conduct security assessment to ensure compliance. You will also conduct Security Awareness Training to promote security awareness among SMRT staff. You have to provide consultancy advice for secure software development (e.g. SecSDLC), review and provide advice on the security controls within the application. On a day-to-day basis, you will need to monitor and generate daily reports on logs for security review.

#### **Requirements:**

You should possess a Degree in IT Security, Computer Engineering, Information Systems, Computer Science or equivalent and a Industry Security Certification such as CISSP or CISA with at least 2 years of relevant experience. You must be proficient in the network/system and application security, be analytical and possess good interpersonal and communication skills.
