

## **SMRT Corporation Ltd – Senior Executive / Executive, Transport Modelling**

You will play a key role to realise and sustain business excellence and service excellence in SMRT's multi-modal public transport business. You will assume responsibilities in developing and using passenger transport demand forecasting models to support SMRT's multi-modal passenger transport planning activities, which include network planning, revenue analysis and operations planning. Your duties could include:

- simulating transport proposals using computer models and working out solutions.
- forecasting the impact of changes to the public transport network and fares.
- designing surveys and collecting data for transport modelling and Geographic Information System (GIS) applications.
- analysing and interpreting data gathered from transport studies.

Requirements:

- You should have a good degree in Civil Engineering, Transport, Geography, Business or a related field.
- You should be highly numerate and possess excellent skills in communications and analysis and the ability to interpret data.
- Experience in transport modelling and the use of the CUBE software and the ArcGIS software would be advantageous.
