

### **SMRT Investments Pte Ltd – Senior Engineer, Projects**

You will plan and manage commercial developments from their inception to completion at existing and future MRT stations. You will also provide advisory services to our properties and media businesses on technical matters.

#### **Requirements:**

You should have a Degree in Engineering (Mechanical or Electrical) or Building Services with at least 6 years working experience in construction, property or building services related projects. Experience working with developers of commercial buildings would be an added advantage, while experience in liaising with consultants, contractors or government agencies would be a requirement.

#### **Human Resource Division**
