

### **SMRT Trains Ltd – Controller**

You will be required to operate the Supervisory Control System in the Operations Control Centre (OCC). You have to ensure that the power, environmental control, fire and flood control equipment are operating properly. In addition, you need to co-ordinate fault reports from stations, terminals and depots as well as to mobilise relevant staff to deal with equipment failures or unexpected events.

#### **Requirements:**

You should possess a Polytechnic Diploma in Electrical Engineering with 5 or more years of relevant experience in operations and maintenance of Power and Environmental Control Systems in a railway environment. Candidates with less than 5 years relevant experience will be considered for the position of Assistant Engineer. Candidates must be prepared to work rotating shifts.
