

SMRT Trains Ltd – Executive Engineer, Infrastructure

You are required to review and prepare Tender documents for all Maintenance Services and Minor Work Term Contracts so as to achieve work efficiency and contract costs optimisation. You also need to study critical and/or recurring structural defects as well as carry out remedies. In addition, you have to ensure all architectural and structural drawings for ad-hoc projects; Addition & Alteration works are prepared according to the relevant codes and regulations and completed with proper approval and clearance from relevant Authorities. You are also responsible for ensuring all Term contractors and ad-hoc project work contractors working in the MRT system observe and comply with all rules, procedures and safety regulations laid down in the work safety manual and railway operation manual.

Requirements:

You should possess a Degree in Civil Engineering. Previous experience in construction industry or building maintenance would be advantageous.
