

SMRT Trains Ltd – Executive Engineer, Maintenance Management System

You will be responsible for supporting Engineering & Projects Division users on the computerised Maintenance Management System (MMS) and other application systems. You will liaise with business units, IT Department and external parties in the design, development and integration with existing modules of new or enhanced MMS/application systems. You are required to prepare and analyse maintenance performance data and management reports, review and co-ordinate users' IT requirements.

You will also be involved in user acceptance test and the overseeing of implementation process to ensure timely and successful execution of the systems to meet the defined business requirements.

Requirements:

You should have a Degree in Engineering, Information Technology or Computer Science. Working knowledge in SAP Plant Maintenance and/or Maximo Maintenance Management System would be an added advantage. Fresh graduates are welcome to apply.
