

SMRT Trains Ltd – Executive Engineer / Senior Engineer, Rolling Stock Workshop

You will be required to manage the fleet of trains for timely maintenance (mainly overhauling, corrective maintenance and modification) in providing a safe, reliable, quality and cost effective operation of these trains as well as to lead a team of Engineers, Assistant Engineers and Technical Officers to provide such activities. This includes planning, organising, monitoring and controlling these maintenance activities to optimise the resources such as manpower, materials, tools, equipment and facilities in the workshop. In addition, you will play a critical role in the areas of efficient workshop management, quality maintenance, safety and productivity movements.

Requirements:

You should possess a Degree in Electrical or Mechanical Engineering with at least 2 years' relevant experience. Previous Railway System or related qualifications and/or working experience would be advantageous. You must be a strategic thinker who is resourceful and mature, and possess excellent leadership, interpersonal and communication skills. Candidates with at least 5 years of related experience and 2 years in managerial position will be considered for the senior position. Fresh graduates are also welcome to apply.
