

SMRT Trains Ltd – Power System Controller

You will manage the Facilities and Infrastructure (FSTR) Control Systems in the Operation Control Centres (OCCs) for either the existing North-South-East-West or the new Circle Line. Your duties include remote switching operations and fault analysis of power, ventilation & fire systems. You will also develop and improve the FSTR operating and safety & emergency procedures

Requirements:

You should possess a Degree or a Diploma in Electrical Engineering with at least 5 years experience in operations and maintenance of Power and Environmental Control Systems. Candidates must be prepared to work rotating shifts
