

### **SMRT Trains Ltd – Senior Engineer, Electrical, Mechanical & Fire**

You are responsible for providing Technical Support to line maintenance staff in their Preventive & Corrective Maintenance works as well as logistics and administrative support to Electrical, Mechanical & Fire (EMF) branch. You will be assigned to plan, monitor and control budget for the branch. In addition, you are required to plan, carry out repair and administrate Minor Works Contracts for Electrical and Fire Protection System as well as to prepare technical specifications, call tenders and execution of upgrading works and equipment replacement.

#### **Requirements:**

You should possess a Degree in Electrical or Mechanical Engineering with at least 5 years working experience in maintenance or railway operation environment. You must be self-motivated, resourceful, organised, independent and possess strong interpersonal & communication skills. Candidates with experience in the renovation of offices relating to electrical distribution and fire protection will be an added advantage. Those with extensive experiences will be considered for senior position.
