

SMRT Trains Ltd – Senior Executive, Maintenance Management System

You will be responsible for supporting Engineering & Projects Division users on the computerised Maintenance Management System (MMS) and other application systems. You will liaise with business units, IT Department and external parties in the design, development and integration with existing modules of new or enhanced MMS/application systems. You will be involved in user acceptance test and oversee the implementation process to ensure the timely and successful implementation of the systems that meet the defined business requirements.

You are required to prepare and analyse maintenance performance data and management reports, review and co-ordinate Engineering & Projects users' IT requirements.

Requirements:

You should possess a degree in Engineering, Information Technology or Computer Science. Working knowledge in SAP Plant Maintenance and/or Maximo Maintenance Management System, systems implementation will have an added advantage.
